

March 2024 Robotics Investments

Company Name	Amount	Type	Country	Tech-Prod-Services	Description
Agilis Robotics	\$10,000,000	Series A	China	Surgical / Interventional Systems	Agilis Robotics develops flexible robotic instruments for endoluminal surgery.
Aloft	Estimate	Other	USA	Drones, Data Acquisition / Processing / Management	Aloft Technologies provides unmanned aerial vehicles and drone fleet management solutions, along with specialized products and services for select vertical market operations.
Applied Intuition	\$250,000,000	Series E	USA	Software	Applied Intuition provides software infrastructure to deploy autonomous vehicles at scale.
Bear Robotics	\$60,000,000	Series C	USA	Indoor Mobile Platforms	Bear Robotics manufactures self-driving indoor robots to assist hospitality employees with their daily tasks.
Coctrl	\$13,891,783	Series B	China	Software	Coctrl provides planning software for industrial robot production lines.
DRONAMICS	\$10,861,702	Grant	UK	Drones	DRONAMICS develops drone technology for cargo transportation and logistics operations.
Eacon Mining	\$41,804,272	Series C	China	Autonomous Transportation Systems, Sensors / Sensing Systems	Eacon Mining is a provider of autonomous haulage solutions and other technologies for surface mining.
ECEON Robotics	Estimate	Pre-Seed	Germany	Autonomous Forklifts	ECEON develops autonomous mobile robots for intralogistics operations.
ESTAT Actuation	Estimate	Grant	USA	Actuators / Motors / Servos	ESTAT Actuation is a developer of electroadhesive clutches for robots and other machines.
Fieldwork Robotics	\$758,181	Grant	UK	Indoor Mobile Manipulation Platforms, Sensors / Sensing Systems	Fieldwork Robotics is developing soft, selective, and autonomous robots for raspberry harvesting.
Firestorm	\$20,519,500	Seed	USA	Drones	Firestorm develops modular, unmanned aerial systems.
Freespace Robotics	Estimate	Other	USA	Automated Storage & Retrieval Systems	Freespace Robotics provides automated storage and retrieval systems.
Gather AI	\$17,000,000	Series A	USA	Drones, Software	Gather AI offers a drone-powered inventory monitoring solution.
Glacier	\$7,700,000	Other	USA	Articulated Robots, Sensors / Sensing Systems	Glacier sorting robots for recycling facilities.
IVY TECH LTD	\$421,435	Grant	UK	Outdoor Mobile Platforms	IVY TECH offers IoT devices and autonomous mobile robots for a variety of industrial applications.
KAIKAKU	Estimate	Pre-Seed	UK	Collaborative Robots	KAIKAKU develops modular robotics and software for the food and beverage industry.
KEF Robotics	Estimate	Grant	USA	Software	KEF Robotics develops software technologies for UAV autonomy, safety and navigation.
Langyu Robot	Estimate	Other	China	Automated Guide Vehicles, Software	Langyu Robot produces heavy-duty AGVs and logistics management systems.
Linkwiz	\$2,679,725	Other	Japan	Software	Linkwiz develops control system software for industrial robots to perform operations such as welding, coating, inspection.
Motional	Estimate	Seed	USA	Autonomous Transportation Systems	Motional offers an autonomous driving platform for robotaxi providers, fleet operators, and automotive manufacturers.
Pattern Labs	\$8,499,994	Other	USA	Indoor Mobile Platforms, Outdoor Mobile Platforms	Pattern Labs develops and builds autonomous mobile robots for indoor and outdoor operations.
Physical Intelligence	\$70,000,000	Seed	USA	Software	Physical Intelligence is developing foundation models and other software for robots and other actuated devices.
Piximo	Estimate	Grant	USA	Indoor Mobile Platforms	Piximoa develops a remote-controlled mobile robot for delivery application within crowds.
Preneu	\$11,314,492	Series B	Korea	Drones	Preneu is a provider of drones and drone services.
QibiTech	\$5,333,884	Other	Japan	Software, Operator Services - UGVs	QibiTech remote control solutions for intelligent robots and system integration services.
Rapyuta Robotics	Estimate	Other	Japan	Indoor Mobile Platforms, Autonomous Forklifts	Rapyuta Robotics offers cloud-connected, autonomous mobile robots for logistics operations.
RITS	\$13,901,825	Series A	China	Sensors / Sensing Systems, Software	RITS develops technologies for autonomous driving and Advanced Driving Assistance Systems for human driving.
Ruoyu Technology	\$6,945,312	Seed	China	Software	Ruoyu Technology is developing a multimodal foundational model for use in robotic systems.
Sanctuary Cognitive Systems	Estimate	Other	Canada	Humanoids / Bipedes, Software	Sanctuary Cognitive Systems is developing a humanoid general-purpose robot powered by an AI control system.
SeaTrac Systems	\$899,955	Other	USA	Unmanned Surface Vehicles	SeaTrac Systems develops unmanned surface vehicles for persistent in-shore and open-ocean operations.
TechMagic	\$16,726,008	Series C	Japan	Articulated Robots, Sensors / Sensing Systems	TechMagic provides cooking robots for restaurants.
Thor Power	Estimate	Seed	China	Articulated Robots	Thor Power is a developer of intelligent robots for charging electric vehicles.
WIFRobotics	\$9,659,374	Series A	Korea	Exoskeletons, Consumer – Home Healthcare / QoL	WIFRobotics provides wearable robots that lessen physical demands and allow active motion.
X Square	Estimate	Seed	USA	Software	X Square is a developer of foundation models designed for general-purpose robots.
Yindatong	Estimate	Seed	China	Surgical / Interventional Systems	Yindatong manufactures surgical robots for cardiovascular procedures.
Zhicheng Power	Estimate	Series A	China	Consumer – Other	Zhicheng Power produces household robots and consumer smart appliances.
Zhongke Huiling	Estimate	Seed	China	Humanoids / Bipedes, Microcontrollers / Microprocessors / SoC	Zhongke Huiling engages in the research and development of humanoid robots for the manufacturing sector, and semiconductor devices for intelligent robots.
